## Investment Highlights

### Largest homegrown total security solutions provider in China

CSST aims to be a premier security company offering innovative technology solutions to help our customers protect people, assets and communities. CSST's customers include government, commercial industrial and education entities.

### One-stop solution business model

CSST has strengthened its product and service mix through organic growth and acquisitions of local security players throughout China. The one-stop solution business model can profit from opportunities that arise in every facet of the mainland security marketplace.

### Experienced management team

CSST's executive management team is led by Guoshen Tu, Chairman and Chief Executive Officer, Terence Yap, Vice Chairman and Chief Financial Officer, and Lizhong Wang, Chief Operating Officer. The company's senior management has an average of more than 20 years of experience in security and IT industry in China.

### Strong industry growth opportunities

The growing demand of security solutions and services in China unleashes tremendous market potential. CSST stands to benefit from safe city and e-city security projects from mainland government, and has already laid a critical mass in these areas.

### Track record of revenue growth

CSST achieved strong top line growth culminating in 2009 revenues of USD580.87 million. In 2010, the company reaffirms its forecast of revenues of USD800-820 million.
